

# Creating Housing Solutions Through Technology

# TEC Ready Project

- National Programme
  - Funded by Scottish Government
  - Sfha hosted housing project
- 

# Why TEC Ready in housing Sector?

- Reach of Housing Sector
    - Social Landlords
    - Number of tenancies
  - Links with Health and Social Care
  - Access to individuals not currently requiring support from formal care services
  - Preventative agenda
- 

# What was the focus of TEC Ready?

- Increasing awareness across Housing Sector
- Roadshows and events
- Publicity and promotion
  - Using TEC as preventative tool
  - How TEC can support self management
  - How TEC links to carer support
- Case studies supporting the use of Technology
- Supporting the 'best of' technology as part of a specialist housing development
- Production of online materials and case study examples

# TEC Ready Progress

- Expressions of interest for small scale TEC projects
- 3 successful bids
  - Projects concluded and reported back to SG
- Projects
  - Tighean Innse Gall (TIG) – A Tablet for the Patient
  - Albyn Housing Society – support towards TEC development for 'Fit Homes'
  - Angus Care and Repair – self-help app, 'Rally Round', to encourage people to address their own family/friend/carer support needs.

## Cont:....

- 'Joining the dots' event
  - >100 delegated across Health, Housing & Social Care
  - Closer understanding of relationship between HHSC
  - Partnership working at the event
- H&SC events
- Housing Conference
- Digital events

# Key themes arising from Project

- Connectivity
  - Person Centred
  - Service Redesign
  - Workforce development
  - Challenges / Barriers
- 

# Some food for thought!

- What can Housing offer the partnership?
- Did you know housing could prevent unscheduled admissions to hospital?
- When did you last speak with Health or Social Care colleagues?
- Do any Housing providers have a housing representative working within the hospital?
- How many of you have attended awareness raising sessions around Technology enabled Care and Digital inclusion?

# Are these some of the Barriers to Housings engagement with Digital and TEC future?

- 
- Knowledge
  - Equipment
  - Cost
  - Connectivity
  - Analogue 2 Digital transition
  - General Practitioners

# Next Steps

- **Creating Housing Solutions Through Technology**

28<sup>th</sup> September 2018

- Launch of Web presence

- Case Studies covering 5 key themes

- Video clips

- pdf

- Potential further SG funding for TEST of Change programme

- Shared learning and further growth of Digital Technology across housing sector

# Questions / Discussion
