

Support your clients with up to £294

Through the Scarf Fuel Fund

If they:

- ✓ Have a prepayment meter
- ✓ Are at risk of running out of credit
- ✓ Can show financial hardship

The Scarf Fuel Fund provides prepayment meter users at risk of running out of credit with up to a maximum of £294 a year in energy vouchers.

In the areas we cover, your housing association can refer tenants directly to Scarf — we'll handle the rest. Outside our delivery areas, your team can become a referral partner and help residents access vital support with minimal effort.

- ✓ Approved partners can verify client details
- ✓ Scarf handles the application process
- ✓ You deliver added value to your client (up to 6x £49 vouchers)

This is a simple, high-impact support option you can plug into your existing services. To get set up as a referral partner or learn more, contact:
